WORKSMART FITTINGS
FOR OFFICE FURNITURE.

Worksmart ebco
ERGONOMIC HARDWARE FOR OFFICES

At Ebco, we believe that all spaces are di-erent. We approach workspaces with the goal of making them productive, e-cient and healthy for your most important resource , human capital. Worksmart is our exclusive range of -ttings for o-c e furniture.

Developed at our recently upgraded and state-of-the-art manufacturing plants, through continuous in-house R&D and our experience as a market leader in India, these -ttings are truly world-class and set the benchmark for Indian workspaces.

MAKES LIFE

THE HALLMARK
OF EFFICIENCY

In our quest for quality, we constantly improve designs, features and speci-cations of our products. We therefore reserve the right to alter or change the design speci-cations without prior noti-cation. The colour of the products in this catalogue may not match the actual colour due to printing limitations.

OVER 60 YEARS OF **CONTINUOUS INNOVATION.**

Ebco was founded in 1963 as a Tool Room and diversified into mass production of critical components such as Cartridge Links for Ordnance Factories. In 1987, Ebco diversified into furniture hardware and has since become India's leading manufacturer of intelligent home and office furniture fittings.

Today, Ebco's product range spans Office Furniture Fittings, Drawer Slides and Hinges, General Hardware, Joinery Fittings & Screws, Furniture Locks, Retail Display Systems, Window-Door & Glass Hardware, Kitchen Systems & Accessories, Aluminium Profiles & Handles, Bed & Wardrobe Fittings & Accessories, Furniture Lights – LED. Our strengths include a range of core competencies in manufacturing, an ever-widening product range, stringent quality standards, affordable prices and an all-India distribution network.

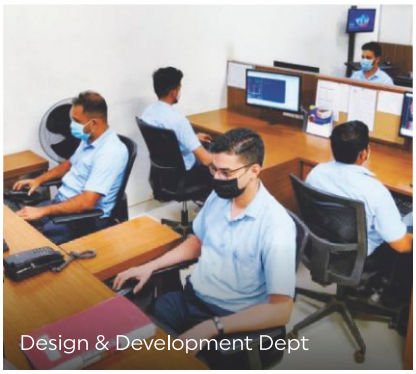
Roll Forming Production Line

INFRASTRUCTURE



Design & Development Dept

CNC machines

Quality Assurance lab

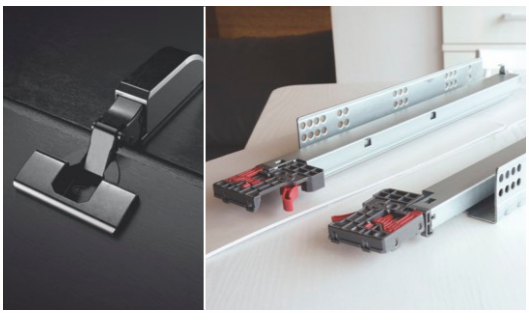
We have a state-of-the-art design and product development department which uses the latest 3D design software and CNC Machining Technology. This enables us to launch many new products every month. Our Tool Room capacities have increased significantly which has reduced product development lead time. Our corporate office is located in India's financial capital, Mumbai; we have three manufacturing plants and multiple warehousing facilities north of Mumbai in the towns of Vasai and Palghar, Maharashtra.

Our plants use state-of-the-art roll forming and sheet metal pressing technology. Our products are engineered to perform and our quality department helps ensure that we consistently achieve this goal. Our Quality Assurance Laboratory at the Vasai manufacturing plant performs rigorous cycle tests, load tests and other checks in accordance with certified international quality norms. Our Window Fittings Plant in Palghar has been expanded to increase production capacity and we have commissioned two new warehouses in Palghar which have significantly increased our storage capacity.

PRODUCT RANGE

Our products are organised in to 12 verticals under 3 brands, each of which are unique, comprehensive and satisfy a variety of requirements.

Simplifying lives.



Ebco - Simplifying Lives

Known for quality with value for money pricing and a wide range, we truly embody the drive to Make in India - we make almost all products under 7 verticals at our plants here in India. Over the past two years, we have significantly widened our range of products with a special focus on the Architectural Hardware and Window Fittings segments.

ERGONOMIC HARDWARE FOR OFFICES

Worksmart - Ergonomic hardware for offices

Already a market leader in this category, we continue to offer great products to facilitate better working habits and enhance productivity. Our Office Furniture Fittings segment includes a variety of Monitor Arms, Smart Lifts - Height Adjustable Desks, Computer Keyboard Stations, CPU Stations, Cable Organisers and other accessories.

INTELLIGENT HARDWARE FOR HOMES

Livsmart - Intelligent hardware for homes.

Our Kitchen Systems and Accessories segment includes Drawer Systems and Accessories, Corner Solutions, Overhead Systems, Midway Systems, Waste Bins, Roll Top Shutters and more. With a special focus on strengthening our Bedroom Furniture Fittings segment we have widened our range of products which includes Wardrobe Sliding Systems and Accessories, Pro Lift & Electric Bed Fittings and related products. We also offer a wide range of Handles & Profiles, beside Furniture Lights (LED) that enhances the decor.

Our strengths in these segments include our broad product range, best-in-segment quality standards, cutting edge features and fair pricing.

CERTIFICATIONS

Quality products, the protection of our environment and nurturing our people have always been our priorities.

As a company, we are BIFMA Compliant. Our manufacturing plant at Vasai houses our Design and Development department, Tool Room, Press Shop, Hardening, Phosphating and Assembly departments and has been certified ISO 9001: 2015 – Quality Management System, ISO 14001: 2015 – Environmental Management System, ISO 45001:2018 – Occupational Health and Safety Management System.

ISO 9001: 2015 Quality Management Systems
ISO 14001: 2015 Environmental Management Systems
ISO 45001: 2018 Occupational Health and Safety Management Systems

Our products are BIFMA compliant.

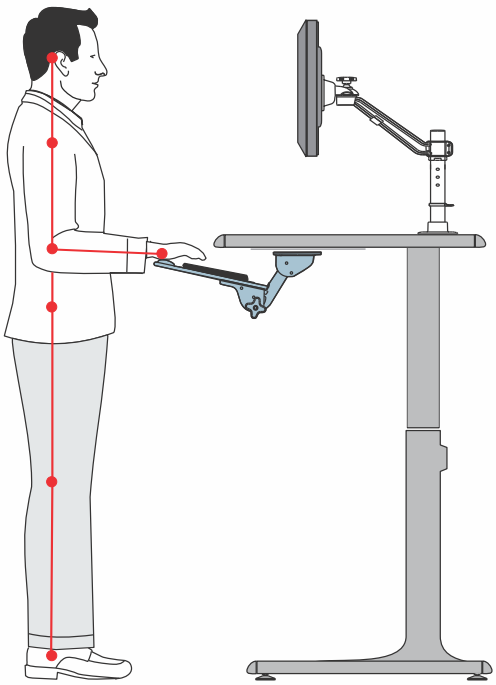
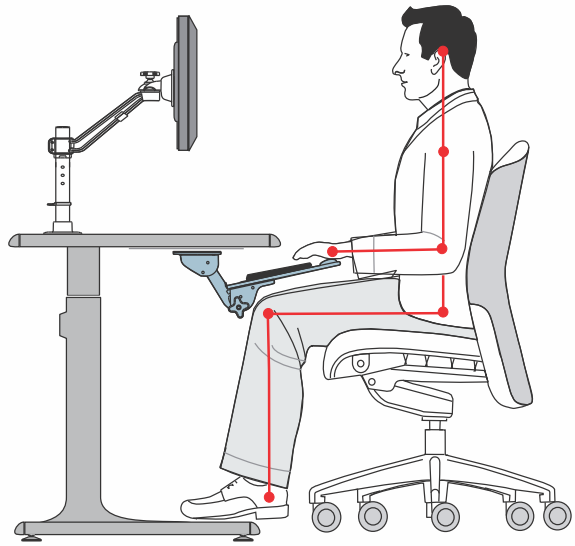
The top priority in choosing Office Furniture Fittings & Accessories should be physical comfort and ease of use. This is the reason why Ebco Office Furniture Fittings & Accessories have been designed to reduce fatigue while working long hours and keep the workspace clutter free. Style enhances visual appeal while the ergonomic design of the furniture and accessories reduces stress levels of the employees.

Ideal Body Posture at Work

Regardless of how good your working posture is, working in the same posture or sitting still for prolonged periods is not healthy. Research shows that changing position periodically or standing for regular intervals throughout the day can reduce fatigue and improve alertness and productivity.





Ideal Standing Position at Work

- The height of the worktop should be set according to your height in such a way that you work without reaching or bending.
- The forearms should be parallel to the floor.
- Try to ensure that head, neck and wrists are in relaxed position and not forced up or down to work.
- The monitor should be at least 16" to 18" (or more depending upon screen size) in distance from your eye.
- The keyboard should be adjusted to a comfortable height that it allows the user to type with upper arms relaxed from the shoulder and forearms parallel to the floor.

Ideal Sitting Position at Work

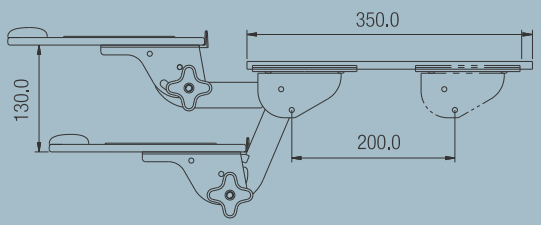
- The height of the worktop should be set according to your height in such a way that you work without reaching or bending.
- The forearms should be parallel to the floor.
- Try to ensure that head, neck and wrists are in relaxed position and not forced up or down to work.
- The monitor should be at least 16" to 18" (or more depending upon screen size) in distance from your eye.
- The top line of the screen should be at your eye level so that the middle of the screen is approximately 20° downward for relaxed viewing.
- Your sitting height should be in such a way that the thighs are parallel to the floor, fully supported on the chair & feet firm on the floor. Use a foot rest for better support.
- The keyboard should be adjusted to a comfortable height that allows the user to type with upper arm relaxed from the shoulder and fore arm parallel to the floor.

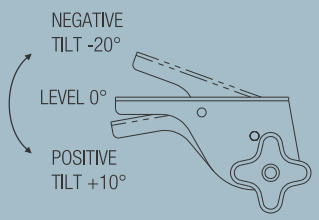
ERGONOMICS@WORK™

Ergonomic **Keyboard Systems** attached underneath the desk, allows you to adjust the height and position of the keyboard to a comfortable position. It is specifically designed to adjust the height and angle of the keyboard to provide a comfortable posture to the user. Though design and a lot of prevailing information say you should tilt the keyboard to a positive angle, it is wrong. A negative angle that allows the wrists to stay in their natural position is proper. A positive angle is an injury waiting to happen.

Use a negative tilt keyboard tray with an upper mouse platform or downward tiltable platform adjacent to keyboard.

Linear and Angular Adjustments





Unique Ultra Sleek Design with negative tilt adjustment

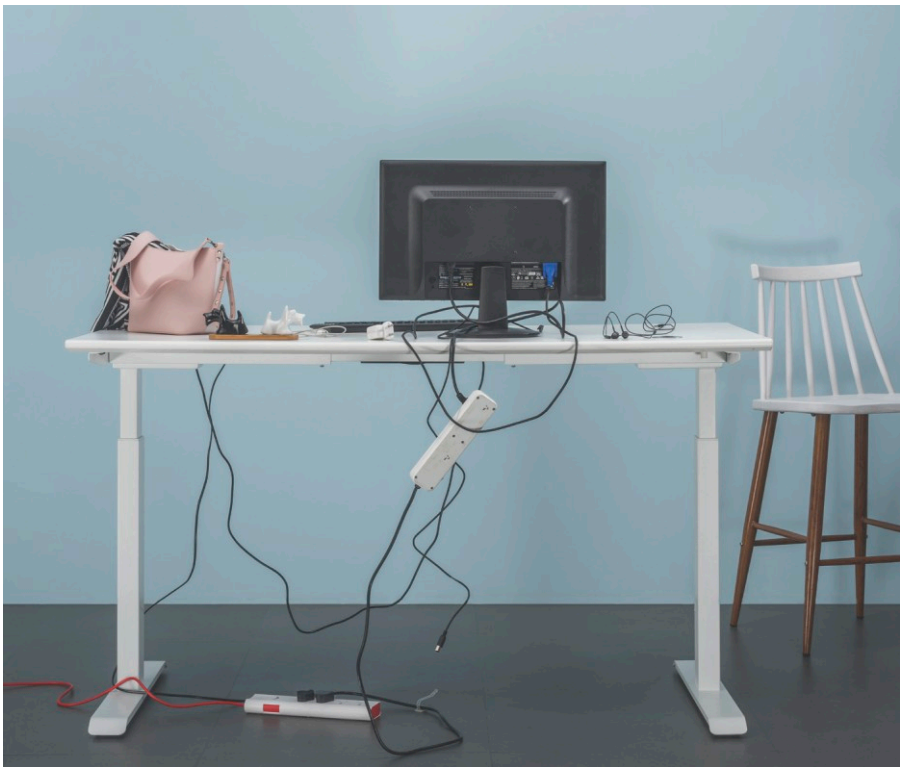
Computer Keyboard Stations has been specially designed to minimize the risk of modern day health hazard - Carpel Tunnel Syndrome (CTS) or Repetitive Stress Injury (RSI). And by using correct monitor arms one can reduce the chance to have Spondylosis.

STAND UP FOR YOUR HEALTH

Continuously working at your desk in a sitting position leads to poor posture and stress on your muscles and spine. Research shows that for every 45 minutes of sitting, we need to take a break and stretch for 5 minutes. Worksmart Smart-Lift Desks are the perfect solution in enabling you to work sitting down or standing up, at the exact height that suits your body!

GET ORGANIZED...

...WITH WORKSMART FITTINGS!



Clutter is associated with anxiety, stress and lost time spent trying to look for things lost in a mess. Ebco cuts the clutter with a variety of solutions that keep even the smallest of desks organized without compromising on functionality. With less desk space, you can still have more 'work' space. As illustrated, get more work space from the same desk.

A height adjustable desk allows you to stand when you feel sluggish or sit at a comfortable height. A monitor arm allows you to adjust the monitor to the height and angle that you prefer. Vertebrae keep those messy wires neat and out of sight and a table edge mount charging station ensures that you don't have to go hunting under your desk for power.

Less is more. This is the magic of Worksmart.

HOMEWORK

With Worksmart Fittings and Accessories.

As families try to adapt and adjust to lockdown conditions, home is becoming the only space from where all activities are being conducted. For adults and children. For of)sce work, schoolwork, entertainment and leisure. Worksmart offers the perfect solutions to make your home truly work for each of these needs. The father's work desk for online meetings, the child's school desk for online classes or music lessons, and even a space for setting up the family's home entertainment centre!

Choose from a wide variety of options, from the simple laptop stand and table bracket to the more elaborate Smart Lift Desk, pole shelving systems that can provide table and shelf spaces in one unit, accessories such as charging stations and extension USB ports, almost everything that makes it convenient to work from home for adults and do homework for kids!

#WFH#Worksmart – The smartest was to do your Homework!

THE SMARTEST WAY TO STUDY AND WORK FROM HOME!
