

ERGONOMIC. CLUTTER-FREE. PRODUCTIVE.

OVER 50 YEARS
OF CONTINUOUS INNOVATION.

Ebco was founded in 1963 as a Tool Room and diversified into mass production of critical components such as Cartridge Links for Ordnance Factories. In 1987, Ebco diversified into furniture hardware and has since become India's leading manufacturer of intelligent home and office furniture fittings.

Today, Ebco's product range spans Office Furniture Fittings, Drawer Slides and Hinges, General Hardware, Joinery Fittings & Screws, Furniture Locks, Retail Display Systems, Window-Door & Glass Hardware, Kitchen Systems & Accessories, Aluminium Profiles & Handles, Bed & Wardrobe Fittings & Accessories, Furniture Lights – LED. Our strengths include a range of core competencies in manufacturing, an ever-widening product range, stringent quality standards, affordable prices and an all-India distribution network.

Palghar Factory

Plant 1 - Vasai

Plant 3 - Palghar

INFRASTRUCTURE

We have a state of the art design and product development department which uses the latest 3D design software and CNC Machining Technology. This enables us to launch many new products every month. Our Tool Room capacities have increased significantly which has reduced product development lead time. Our corporate office is located in India's financial capital, Mumbai; we have three manufacturing plants and multiple warehousing facilities north of Mumbai in the towns of Vasai and Palghar, Maharashtra.

Our plants use state-of-the-art roll forming and sheet metal pressing technology. Our products are engineered to perform and our quality department helps ensure that we consistently achieve this goal. Our Quality Assurance Laboratory at the Vasai manufacturing plant performs rigorous cycle tests, load tests and other checks in accordance with certified international quality norms. Our Window Fittings Plant in Palghar has been expanded to increase production capacity and we have commissioned two new warehouses in Palghar which have significantly increased our storage capacity.

PRODUCT RANGE

Our products are organised in to 11 verticals under 3 brands, each of which are unique, comprehensive and satisfy a variety of requirements.

WORKSMART – *ERGONOMIC HARDWARE FOR OFFICES*

Already a market leader in this category, we continue to offer great products to facilitate better working habits and enhance productivity. Our Office Furniture Fittings segment includes a variety of new Monitor Arms, Smart Lifts – Height Adjustable Desks, Computer Keyboard Stations, CPU Stations, Cable Organisers and other accessories.

EBCO – *SIMPLIFYING LIVES*

Known for quality with value for money pricing and a wide range, we truly embody the drive to Make in India – we make almost all products under 7 verticals at our plants here in India. Over the past two years, we have significantly widened our range of products with a special focus on the Architectural Hardware and Window Fittings segments. Our newly introduced products include Pole Display Shelving System, Steelfix, Combination Locks, Drawer Slides & Hinges, Friction Stays, Sliding Window Locks and many more.

LIVSMART – *INTELLIGENT HARDWARE FOR HOMES*

Our Kitchen Systems and Accessories segment includes Drawer Systems and Accessories, Corner Solutions, Overhead Systems, Midway Systems, Waste Bins, Roll Top Shutters and more. With a special focus on strengthening our Bedroom Furniture Fittings segment we have widened our range of products which includes Wardrobe Sliding Systems and Accessories, Pro Lift & Electric Bed Fittings and related products.

Our strengths in these segments include our broad product range, best-in-segment quality standards, cutting edge features and fair pricing.

Ergonomics is the science of making spaces work well for people who use them. It is the understanding of how an office environment best interfaces with human use and productivity. Comfort and ease-of-use of office furniture primarily depend on the fittings and accessories that are used with them.

The background of the lower half of the page is a stylized illustration of a home office. It features a light blue wall, a dark grey floor, and a white desk with a black adjustable base. On the desk, there is a laptop, a small plant in a white pot, and some papers. A large, dark grey rectangular box is overlaid on the illustration, containing white text. The text is arranged in two paragraphs, with the first paragraph being longer than the second. The overall aesthetic is clean and modern.

Working and studying from home are here to stay. To be productive from home and stay pain-free after all those hours, you need an ergonomic #WorkFromHome height adjustable desk, and a set of essential accessories to keep you organized and your space clutter free.

Choose from a wide range of SmartLifts and other ergonomic products to build your own #SmartDesk today.

Ebco leads the way with its innovations through Worksmart Fittings for office furniture. Products such as Smart-Lift Height Adjustable Desks, Monitor Arms, Articulated Keyboard Stations, CPU Stations, easy-access under or above desk charging stations and Safe Drawers are just some of the many products that revolutionize workspaces and enable people to work better.

With Worksmart Fittings and Accessories.

As families try to adapt and adjust to lockdown conditions, home is becoming the only space from where all activities are being conducted. For adults and children. For office work, schoolwork, entertainment and leisure. Worksmart offers the perfect solutions to make your home truly work for each of these needs. The father's work desk for online meetings, the child's school desk for online classes or music lessons, and even a space for setting up the family's home entertainment centre!

Choose from a wide variety of options, from the simple laptop stand and table bracket to the more elaborate Smart Lift Desk, pole shelving systems that can provide table and shelf spaces in one unit, accessories such as charging stations and extension USB ports, almost everything that makes it convenient to work from home for adults and do homework for kids!

#WFH#Worksmart – The smartest was to do your Homework!

THE SMARTEST WAY TO STUDY AND WORK FROM HOME!

GET ORGANISED...

Clutter is associated with anxiety, stress and lost time spent trying to look for things lost in a mess. Ebco cuts the clutter with a variety of solutions that keep even the smallest of desks organized without compromising on functionality. With less desk space, you can still have more 'work' space. As illustrated above, get more work space from the same desk.

...WITH WORKSMART FITTINGS!

A height adjustable desk allows you to stand when you feel sluggish or sit at a comfortable height. A monitor arm allows you to adjust the monitor to the height and angle that you prefer. Vertebrae keep those messy wires neat and out of sight and a table edge mount charging station ensures that you don't have to go hunting under your desk for power.

Less is more. This is the magic of Worksmart.

STAND UP FOR YOUR HEALTH

Continuously working at your desk in a sitting position leads to poor posture and stress on your muscles and spine. Research shows that for every 45 minutes of sitting, we need to take a break and stretch for 5 minutes.

ERGONOMICS@WORK™

Worksmart Smart-Lift Desks are the perfect solution in enabling you to work sitting down or standing up, at the exact height that suits your body!

SMART LIFTS

SMART LIFT PRO 2

1 SLTLP2 - E

- Dual Motor.
- Anti-collision sensors and safety control.
- 3 Stage rectangular legs.
- 3 Height Memory Setting.
- Height (in cm / inch) Display.
- 2 USB ports for mobile phone charging.
- Width Adjustment: 1075-1800mm.
- Height Adjustment: 640-1290mm.
- Display Height Range : 660-1310mm (Considering Table Top)
- Stroke : 650mm
- Speed – 40mm/sec.
- Max. Load: Static – 200KGS / Dynamic - 120KGS.
- Input Power: 220-230 V / 50-60 Hz / 2S A
- Noise Level: < 50 dB (A)
- Finish : White / Anthracite

How to set height memory setting:
