

- KDMS offers innumerable options and flexibility to the Kitchen Designer as well as the end user to organize each drawer in a kitchen to its best use in terms of storage and utility.
- The System consists of Drawer Trays that are made of Polypropylene, for different standard cabinet widths of 450mm, 500mm, 600mm, 800mm and 900mm.
- There are utility products such as spice holders, knife holder, cutting board, roll holder with inbuilt cutter for paper/foil etc and storage options like plate holders, bottle racks, and container set of 4 with capacities of 500cc and 1000cc, etc, to fit in these drawer trays.
- Alternatively, if you need to use the drawer tray as a cutlery tray, you can use the divider of different sizes to make your own layout.
- These inserts and dividers are compatible with different size options available for the drawer trays.
- Elegantly designed, these accessories are ideal to be used with the Ebco PRO-MOTION Drawer Slides.
- However, it has a flexibility to trim the border and use it for wooden drawers as well.

## Combination of Utility Accessories

# KITCHEN DRAWER MANAGEMENT SYSTEM (KDMS)

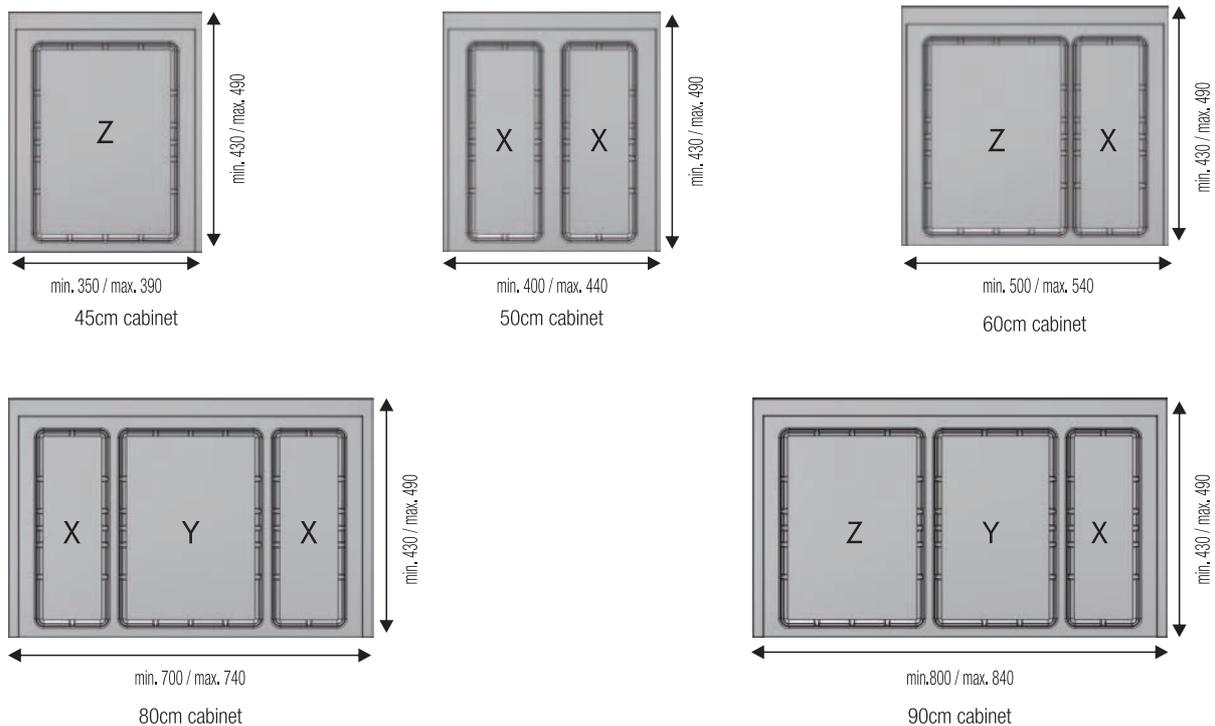

Drawer trays are available as per standard cabinet widths (450mm, 500mm, 600mm, 800mm, and 900mm). These trays have three different sizes of cavities namely; 'X', 'Y', and 'Z' to fit in a wide range of accessories and utilities to organize the drawer as per individual choice.

- Made out of polypropylene.
- Easy to clean.
- Available in Grey finish.
