

62 YEARS

OF MANUFACTURING EXCELLENCE

Ebco was founded in 1963 as a Tool Room and diversified into mass production of critical components such as Cartridge Links for Ordnance Factories. In 1987, Ebco diversified into furniture hardware and has since become India's leading manufacturer of intelligent home and office furniture fittings.

Today, Ebco's product range spans Office Furniture Fittings, Drawer Slides and Hinges, General Hardware, Joinery Fittings & Screws, Furniture Locks, Retail Display Systems, Window-Door & Glass Hardware, Kitchen Systems & Accessories, Aluminium Profiles & Handles, Bed & Wardrobe Fittings & Accessories, Furniture Lights – LED. Our strengths include a range of core competencies in manufacturing, an ever-widening product range, stringent quality standards, affordable prices and an all-India distribution network.

INFRASTRUCTURE

We have a state of the art design and product development department which uses the latest 3D design software and CNC Machining Technology. This enables us to launch many new products every month. Our Tool Room capacities have increased significantly which has reduced product development lead time. Our corporate office is located in India's financial capital, Mumbai; we have three manufacturing plants and multiple warehousing facilities north of Mumbai in the towns of Vasai and Palghar, Maharashtra.

Our plants use state-of-the-art roll forming and sheet metal pressing technology. Our products are engineered to perform and our quality department helps ensure that we consistently achieve this goal. Our Quality Assurance Laboratory at the Vasai manufacturing plant performs rigorous cycle tests, load tests and other checks in accordance with certified international quality norms. Our Window Fittings Plant in Palghar has been expanded to increase production capacity and we have commissioned two new warehouses in Palghar which have significantly increased our storage capacity.

PRODUCT RANGE

Our products are organised in to 11 verticals under 3 brands, each of which are unique, comprehensive and satisfy a variety of requirements.

WORKSMART - FRGONOMIC HARDWARE FOR OFFICES

Already a market leader in this category, we continue to offer great products to facilitate better working habits and enhance productivity. Our Office Furniture Fittings segment includes a variety of new Monitor Arms, Smart Lifts – Height Adjustable Desks, Computer Keyboard Stations, CPU Stations, Cable Organisers and other accessories.

EBCO - SIMPLIFYING LIVES

Known for quality with value for money pricing and a wide range, we truly embody the drive to Make in India – we make almost all products under 6 verticals at our plants here in India. Over the past two years, we have significantly widened our range of products with a special focus on the Architectural Hardware and Window Fittings segments. Our newly introduced products include Cube Shelving System, Steelfix, Digital Locks, Drawer Slides & Hinges, Friction Stays, Sliding Window Locks and many more.

LIVSMART - INTELLIGENT HARDWARE FOR HOMES

Our Kitchen Systems and Accessories segment includes Drawer Systems and Accessories, Corner Solutions, Overhead Systems, Midway Systems, Waste Bins, Roll Top Shutters and more. With a special focus on strengthening our Bedroom Furniture Fittings segment we have widened our range of products which includes Wardrobe Sliding Systems and Accessories, Pro Lift & Electric Bed Fittings and related products. We also offer a wide range of Handles & Profiles, beside Furniture Lights (LED) that enhances the decor.

Our strengths in these segments include our broad product range, best-in-segment quality standards, cutting edge features and fair pricing.

CERTIFICATIONS

Quality products, the protection of our environment and nurturing our people have always been our priorities.

As a company, we are BIFMA Compliant. Our manufacturing plant at Vasai houses our Design and Development department, Tool Room, Press Shop, Hardening, Phosphating and Assembly departments and has been certified in ISO 9001: 2015 – Quality Management System, ISO 14001: 2015 – Environmental Management System, ISO 45001:2018 – Occupational Health and Safety Management System.

Sustainability@Ebco

We believe that we are living on time that is borrowed from future generations. Our manufacturing operations have been designed to have the least impact on the environment and leave the space we work in better than when we first acquired it. This translates into a number of sustainability initiatives such as rainwater harvesting, solar power generation and use for manufacturing operations, waste management and recycling that spans water, bio-waste and e-waste. Along with the latest manufacturing technology, our plants are also home to large gardens with multiple species of flowering plants and fruit trees.

Environmental Management System

We are proud to be ISO 14001:2015 certified in Environmental Management System (EMS), which provides a systematic approach and framework to environmental management by implementing systems to make operations environmentally sustainable. Through our green initiatives, we work towards a cleaner, greener world for future generations.

Furniture Fittings Care to last long

Install the products as per fitting instructions provided.

Ensure proper adjustments/alignments and after installation (including floor level and cabinet dimensions).

Hardware installation to be carried out only after civil & painting work is completed.

Always use a clean and dry cloth to wipe any part of the hardware. May be done twice a month.

For materials such as stainless steel etc., always use a special cleaner (if available) or clean water in a soft cloth or sponge (slightly damp, not wet) and re-wipe the area with a dry cloth once done.

If unsure about product installation, please download fitting instruction from www.ebco.in or contact our authorized distributor/dealer or company directly for assistance.

Do not use any kind of cleaning agents such as Thinner, Turpentine Oil, Colin, Detergent Solutions etc. to clean hardware components. Do not apply Paints, Polish, Varnish.

Do not abuse the product- i.e, hammering and forcefully exceeding the opening angles, forcefully pushing the channels without considering/checking for side gaps, exceeding the specified load capacity, exposing to heat or fire etc. (Do not alter or modify a product)

Do not lubricate the products without first checking the applicability of the lubricant with the company.

Do not open a product to inspect it's internal parts without consulting an authorized distributor or the company directly.

Do not let saw dust and concrete rubble/dust enter any components of the hardware.
